MADHUMITHA S

SOFTWARE DEVELOPER

madhumithasankar1336@gmail.com | +91 7358871336 | LinkedIn: Madhumitha S | GitHub: Madhumithasankar | Coimbatore

PROFESSIONAL SUMMARY

Aspiring Software Developer with a strong foundation in Java, JavaScript, DSA, and full-stack web development. Experienced in building responsive, database-driven applications using React.js, Node.js, Express.js, MySQL, and MongoDB. Eager to contribute to real-world software projects while continuously improving development, problem-solving, and engineering skills.

EDUCATION

B.Tech – Information Technology | Sri Shakthi Institute of Engineering and Technology, Coimbatore | 2024–2028
CGPA: 8.27

Higher Secondary (HSC) | Government Girls Higher Secondary School, Vellore | 2024 | 85%

Secondary School (SSLC) | Government Girls Higher Secondary School, Vellore | 2020 | 75%

TECHNICAL SKILLS

Programming: Java, C, Python, JavaScript, SQL
Web Technologies: HTML, CSS, JavaScript, React.js, Bootstrap, Node.js, Express.js, REST APIs
Databases: MongoDB, MySQL
Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Machine Learning basics, Data Visualization
Tools: GitHub, MS Excel, MS Word

PROJECTS

CareerConnect – MERN Stack Job & Internship Management Platform | Present

React.js, HTML, CSS, JavaScript, Node.js, Express.js, MySQL, MongoDB

- Developed a responsive platform to help students discover and apply for job and internship opportunities.
- Built job and internship listings, student and company sections, search/browse, and application management features.

Digital Twin and Cyber-Physical System for Smart Warehouse Optimization | Jul 2026 – Oct 2026

React.js, Node.js, Express.js, MongoDB

- Developed a software-based digital twin for real-time smart-warehouse monitoring without physical hardware.
- Implemented inventory tracking, automated guided vehicle (AGV) simulation, alerts, and optimization.

FoodShare AI – AI-Powered Food Donation Platform | Jun 2026 – Jul 2026

React.js, Node.js, MongoDB

- Developed a full-stack food donation platform with secure login and restaurant–NGO matching.
- Implemented food donation tracking and volunteer management features.

MADHUMITHA S

PROJECTS, EXPERIENCE & ADDITIONAL INFORMATION

PROJECTS (CONTINUED)

Smart AI-Based Healthcare System | Jan 2026 – May 2026

Machine Learning, Java, HTML, CSS, JavaScript, MySQL

- Developed a machine-learning-based application for disease prediction using patient data.
- Supported clinical decision-making by improving diagnosis accuracy.

E-Commerce Price Comparison Platform | Jul 2025 – Nov 2025

React.js, Node.js, MongoDB

- Built a web platform comparing product prices and offers across multiple shopping websites.
- Implemented product search and redirection to the platform offering the best price.

EXPERIENCE

Machine Learning Intern – Corizo (Stock Price Prediction) | Jan 2026 – Feb 2026

Python, Machine Learning, Data Visualization

- Analyzed historical stock data and visualized price trends using Python.
- Built a machine learning model to predict future stock prices.

Machine Learning Trainee – Corizo | Jul 2025 – Aug 2025

Python, Data Preprocessing, Data Analysis, Data Visualization

- Completed hands-on training in Python, data preprocessing, data analysis, data visualization, and basic machine learning techniques.

ACHIEVEMENTS

- Participant, Adobe University Hackathon (9 August 2026): worked in a team to solve real-world technology challenges.
- Participant, Hack Devengers 2.0 (Developers, in association with Major League Hacking): contributed enthusiasm, creativity, and effort toward innovative solutions.
- Participant, Coding Contest of Aven Coding Hackathon 2.0, organised by Kartexa via Unstop.
- Participant, TVS Credit E.P.I.C 8.0 – IT Challenge, as part of Team Codens (Certificate of Participation, 10 October 2026).

INTERESTS & LANGUAGES

Interests: Full Stack Development, Data Structures and Algorithms, Java, Artificial Intelligence, Open Source.
Languages: Tamil, English
